March 23, 2023

12:00 noon – 1:00 p.m.

If you're a fan of *Dateline* you know how murders are solved using familial DNA. But how is genealogy used in everyday legal situations? This CLE teaches us how a credentialed genealogist consults with attorneys to accurately identify and document next-of-kin.

How is Genealogy Used by Lawyers?

- Learn how a credentialed genealogist consults with attorneys to accurately identify and document next-of-kin
- The standards of professional genealogy: it's much more than searching Ancestry.com
- How a skilled genealogist identifies and located the correct individuals and handles complicated families
- Important techniques used to restructure a family
- What the attorney should expect from the genealogist (reports, communication, family trees, service)
- How to select a qualified genealogist
- Qualifying your genealogist for testimony
